SITUATION REACHES CLIMAX

Thoughtful and Well Informed Men on
Both Sides Anxious to Terminate
Conflict—Extremists and Ignorant
Masses Desire to Continue Struggle
for Supremacy, Even Though It
Means Ruin, Disruption and
Slaughter.Shanghai, Nov. 14.—Thirteen ves-
sels of the imperial fleet went over to
the revolutionists, hoisting the white
flag. One of the largest cruisers
steamed up the river past the settle-
ment and dipped the white ensign in
salute to the foreign warships, to
which none of them responded.It would appear as though the situa-
tion in China has about reached a cli-
max. The thoughtful and well in-
formed men of both sides are anxious
for a settlement. The extremists and
the ignorant masses are willing, even
anxious, to continue the struggle for
supremacy, even though it spells ruin,
disruption and wholesale slaughter,
which appear inevitable unless consid-
erable concessions are made by both
parties.All eyes are now turned on Peking,
where Yuan Shi Kai doubtless will en-
deavor to demonstrate to the court the
danger which threatens it. Meanwhile
provincial governments have organized
and soon will begin to give evidence
of divergent opinions, which, it is
feared, it will be impossible to recon-
cile.Throughout the newly reconstructed
provinces business is being carried on
spasmodically, but the tension is in-
creasing, as the scarcity of food and
money is felt in the entire southern
section and particularly in Shanghai,
where it is estimated the population
has increased by 200,000 in the last
week.

Absence of Organized Power.

This is regarded as one of the most
dangerous features of the situation.
Unless the self-restraint of the mob
is greater than is believed the con-
tinued absence of organized govern-
ment cannot fail to result disastrously.Wu Ting Fang, former Chinese min-
ister to the United States, who re-
cently was appointed secretary of for-
eign affairs under the proposed reform
administration, has telegraphed a long
address to Peking urging the regent,
Prince Chun, to abdicate. He points
out that since the emperor's edict ad-
mitting responsibility for present con-
ditions and promising reforms there
has been an atrocious massacre and
ten provinces have severed themselves
from the throne without a struggle.Wu Ting Fang adds that nothing,
but the adoption of republicanism can
bring peace and stop the shedding of
blood. The regent, he says, should
emulate the example of the ancient
emperors, Yao and Han, who abdicat-
ed after choosing the best available
substitutes.Dr. Wu promises that if the regent
wakes up and works for the republic
the citizens will respect and support
him in a style compatible with his
birth, inasmuch as the peace and safe-
ty of the Manchu clans are not exclud-
ed from the national aims. The ap-
pel concludes:"Our voice is hoarse and our tears
are exhausted. No more can be said."
Rumors are current that Admiral
Sah's fleet at Hankow has either sur-
rendered or been overcome by the
revolutionaries.

BEATTIE MUST PAY PENALTY

Virginia Supreme Court Denies Wife
Murderer's Appeal.Richmond, Va., Nov. 14.—The su-
preme court of appeals denied the pe-
tition for a writ of error by Henry
Clay Beattie, Jr., convicted of murder-
ing his young wife last July. This de-
cision on the appeal from the judg-
ment of the Chesterfield court, which
sentenced him to die in the electric
chair Nov. 24, is final. Clemency or
reprieve by Governor Mann only can
save the condemned man.Beattie, now twenty-seven years of
age, murdered his wife, Louise Owen
Beattie, aged twenty-one, after taking
her for an automobile ride on the
Middleton pike on the night of July
17. He was arrested on July 20. He
was convicted on circumstantial evi-
dence and maintained his innocence.
He has never yet shown any sign of
weakening.

FATE PURSUES BROTHERS

Last One of Three Dies in Rail Wreck,
Same as Others.Greensboro, N. C., Nov. 14.—Engi-
neer W. A. Kinney, the last of three
brothers to be claimed in railway
wrecks, was killed and several train-
men and passengers were slightly in-
jured near here when a Southern Rail-
way limited train was derailed.Seven cars left the track and turned
on their sides. The escape of the pas-
sengers is attributed to the fact that
all the cars were of steel construction.
The accident occurred while the
train was running about sixty-five
miles an hour and was caused by a
spreading rail.REGULARS CALL

nomination and Re-Election.

BELIEVE MOVEMENT IS DYING

Leaders Inform Chief Executive Pro-
gressive Sentiment in West Is Wan-
ing and That Every State in Which
Insurgents Have Cut Any Figure
Will Send a Taft Delegation to the
National Convention.Washington, Sept. 14.—President
Taft is conferring with his cabinet
members on the administrative and
legislative policies to be pursued and
with regular Republicans who are in-
terested in his renomination and re-
election.Among the callers who saw the
president were Secretaries Fisher,
Knox and Wilson, Attorney General
Wickersham, General Carter, Senators
Cullom, Smoot and McCumber and
Representatives Campbell of Kansas
and Ames of Massachusetts.The confidence of a practically
unanimous renomination and a tri-
umphal re-election with which the pre-
sident returned from his 15,000-mile
tour of the country has been strength-
ened by the testimony of the regular
Republican leaders. They have told
the president the progressive move-
ment is dying out in the West and that
every state in which the progressive
Republicans have cut any figure will
send a solid Taft delegation to the na-
tional convention. The White House
is fairly scintillating with political
confidence.When this attitude became known
to the leaders at the headquarters of
the national progressive Republican
committee one of them said:
"Hush, not a word. When they
wake up it will be all over."

Ignore Primary Challenge.

The president and his advisers have
ignored the challenge of the La Fol-
lette committee to submit the question
of a Republican presidential candidate
to a popular primary in each state.
Five states will have such primaries
by law, but the progressives have pro-
posed that in other states the popular
choice of candidates be effected by an
informal primary arranged by the
state committees. The regulars laugh
at the idea and call it socialistic.Members of the old guard who are
in the confidence of the president be-
lieve this is the time to "finish off the
progressives," by withholding the fed-
eral patronage due them as the presi-
dent did a year ago last winter."Uncle Joe" Cannon suggested the
cutting off of all patronage at that
time as punishment for the opposition
of progressive senators and repre-
sentatives to legislation favored by
the president. Mr. Taft carried out
the suggestion, but it failed to scare
any of the progressives.Senator Cullom called to remind the
president that he would like to have
his friend, Judge J. Otis Humphrey of
Springfield, promoted to the vacancy
on the supreme court bench, created
by the death of Associate Justice Har-
lan, or that on the court of appeals
made by the resignation of Peter
Grosscup.

GOMPERS DENOUNCES COURTS

American Federation of Labor Meets
at Atlanta, Ga.Atlanta, Ga., Nov. 14.—Denouncing
as the foes of labor "subservient
courts," "injunction judges," and the
McNamara "persecution" in Los An-
geles, President Samuel Gompers de-
livered his annual address before the
thirty-first annual convention of the
American Federation of Labor. To
desert partisan politics, better work-
ing conditions was the remedy sug-
gested.Frank Morrison submitted his an-
nual report, showing that the federa-
tion now has 1,756,000 members, the
greatest since its organization.The federation voted unanimously
to instruct President Gompers to send
a message to the McNamara brothers,
in jail at Los Angeles, that the mem-
bers of the organization are firm in
the belief that they are innocent and
assuring them of their continued sup-
port.

Railroads Win in Contest.

Washington, Nov. 14.—The long
stubbornly fought contest over the
power of the interstate commerce
commission to prohibit railroads from
paying to operators of elevators all
compensation for "elevating grain in
transit" was finally decided when the
United States supreme court held the
commission possessed no such power.

Richeson Trial on Jan. 15.

Boston, Nov. 14.—Rev. Clarence V.
T. Richeson will be placed on trial on
the charge of murdering Miss Avis
Linnell on Jan. 15, 1912. This date
was set when Richeson was arraigned.
Without apparent emotion the preach-
er pleaded "not guilty." He was then
returned to jail to await trial.

LAD KILLED WHILE HUNTING

Son of Kandota Farmer Found Dead
With Clothing Afire.Sauk Center, Minn., Nov. 14.—Fred
Larson, thirteen-year-old son of John
Larson, living in Kandota township,
nine miles north of Sauk Center, was
fatally shot while hunting rabbits. He
was with an older brother, who went
home first. Fred, failing to return, a
search was instituted and he was
found lying dead with his clothing
afire.It is thought he tripped and the gun
was accidentally discharged. The body
was burned and mangled, as the fire
caused the cartridges in the belt to
explode.YOUTHFUL PRANK
COSTS THREE LIVESBoys Throw Nitroglycerin Car-
tridges Into Bonfire.Rochester, N. Y., Nov. 14.—A boyish
prank of throwing nitroglycerin blast-
ing cartridges into a bonfire they had
built resulted in an explosion that
instantly killed one boy and two com-
panions died later at the General hos-
pital.The dead are: John McGuire, aged
fourteen; Archie Clark, thirteen; Wil-
liam Perry, eight.The force of the explosion shattered
windows within a radius of 500 feet.
It is believed that the boys threw
about 450 of the blasting cartridges
into the fire. They took them from
the plant of the Rochester Lime com-
pany.The body of Perry was hurled high
in the air over a tall tree and landed
in the branches of an apple tree. The
head was found on the roof of a back
kitchen of a dwelling about 100 feet in
an opposite direction. One leg was
carried over several trees and one
dwelling before it landed on the side-
walk of a street 200 feet away.The eyes of both the Clark and Mc-
Guire boys were blown out and their
bodies were terribly mutilated. Not
thoroughly recovered consciousness.

MOVING PICTURE MEN JOLTED

Films Based on Copyrighted Books
Held to Be Infringement.Washington, Nov. 14.—Moving pic-
ture show promoters received a blow
when the supreme court of the United
States decided that moving pictures
based on the scenes of a copyrighted
book may constitute an infringement
of the copyright on the book or the
reserved rights to dramatize.The court's decision was announced
in a contest over the copyright of Gen-
eral Le Wallace's famous "Ben Hur."
The copyright was owned by Harper
& Bros., book publishers. This com-
pany granted to Klaw & Erlanger of
New York the sole right of producing
a dramatization of the story. It ap-
pears that the Kalem company em-
ployed a writer to read the story and
write a description of certain portions
of it and that from this a moving pic-
ture film was produced.

MUTINY ON THE MINNESOTA

One Man Killed and Four Wounded
on J. J. Hill's Liner.Los Angeles, Cal., Nov. 14.—Details
of a mutiny aboard the steamship
Minnesota, which resulted in the
death of one of the vessel's crew and
the injury of four others, were re-
ceived in a letter from the Orient. The
mutiny broke out early in October
and as a result of it and the inquiry
which came as a sequel the big ship
was held for ten days in Yokohama.
The trouble occurred among Chinese
firemen on the steamer.

CONVENTIONS ALSO AFFECTED

Will Make Little Difference in the Re-
sult—New York Remains Pivotal
State—Champ Clark Talks Right Out
in Meeting—Panama Very Much In-
spected.

By ARTHUR W. DUNN.

Washington, Nov. 14.—[Special.]—
The next national conventions and the
electors in the college which will
choose the next president and vice
president will be under the new ap-
portionment adopted by the last con-
gress. As that apportionment does not
go into effect until March 4, 1913, it
was supposed that the electors would
be the same as at present, but an old
statute provides that the number of
electors shall be the number to which
each state is entitled on the date when
the president and vice president take
office. That means that the increased
number will be elected next year.There are people who figure out that
the new apportionment will have a
great importance in determining the
election, but that is not the case. The
increase in New York, with New York
the pivotal state, makes the contest
resolve itself into pretty much the
same situation as heretofore. Either
party must carry New York to win the
presidency.

Unfortunate Utterances.

Three times President Taft rather
indicated that he was not likely to be
re-elected. These are called by his
friends "unfortunate utterances." "I
like Champ Clark," remarked a south-
ern congressman, "but he does have
the faculty of saying things that hurt
him. He seems to be in favor of ad-
dition and division—addition of Canada
and division of Texas. Neither is
popular just now. I am sorry he said
anything on these subjects, but it is
just like Champ to say what he
thinks."

Maybe Champ Was Right.

Perhaps Clark was right, though.
When he said the time would come
when the stars and stripes would float
over the territory of America to the
north pole. Yet let any one appear in the
far western Canadian provinces on the
Fourth of July and he will see such a
display of American flags as to aston-
ish him. The American citizens who
have gone to Canada think much of
the stars and stripes. If the Canadian
government were not mighty good to
them there would be much more an-
nexation talk than was heard during
the late Canadian campaign.

Inspecting Panama.

Panama is being mighty thoroughly
inspected this year. All that is lacking
is a visit from the president and he
may decide to go if he feels the wan-
derlust creeping upon him again. Sec-
retary Stimson has been there with
General Wood and General Edwards.
Senatorial committees have been there.
House committees and house members
have been there.Really old Panama has been quite a
magnet this fall season. It is mighty
important, too, for congress has got to
legislate upon the Panama question and
decide upon the tolls and such matters.
How could a congressman tell how to
vote on the rate of toll if he has not
seen the big ditch? And yet a lot of
them who have not taken the trip will
be plumb ignorant unless the more for-
tunate consent to tell them about it.

Taft and the Court.

About the time President Roosevelt
was pushing Taft into the presidency
there was considerable opposition to
the program by men who did not want
any more Roosevelt policies. "I was
surprised to find at that time," said
former Senator Spooner, who was re-
nominating, "that several of the big busi-
ness men of the country were satisfied
with Taft. The supreme court will be
reorganized by the next president," said
one of them, "and I am perfectly satis-
fied to have Taft reorganize that tribu-
nal." His words were prophetic. Taft
has appointed four new men on the
bench and will appoint another.

Joy of Incompetence.

The men who accumulate millions,
build big houses and fix everything
just as they formerly imagined they
wanted them find, after all, that the
only joy they have is incompetence.
Not long ago a Philadelphia million-
aire was showing the beauties of his
fine country home, telling how he had
worked out first one detail and then
another."Now that it is nearly complete," he
said, "I scarcely know what to do with
myself. It has been a great pleasure
to plan and see executed all this work,
but I will soon be without an occupa-
tion." He couldn't sit down and enjoy
it all after he acquired it.

Not For Graham.

When Congressman Graham of Illi-
nois moved into his new office he
found a foot warmer in the place.
"That does not belong to me," he said.
"Take it out of here. That evidently
belonged to the fellow who had this
room ahead of me. He was a Republi-
can. You know those Republicans
get cold feet during the last cam-
paign." And Graham didn't even let
on that he ever cracked a joke.

The American Navy.

The origin of the American navy
dates from Oct. 13, 1775, when con-
gress authorized the equipment of two
cruisers.

MAGISTRATE STOPS MATCH

Decision May Be Death Blow to Box-
ing in England.Birmingham, Eng., Nov. 14.—A mag-
istrate in the police court ruled that
the proposed contest between Owen
Moran and Jem Driscoll for the light-
weight championship of the world
would be a prize fight within the
meaning of the law and therefore il-
legal. He bound Moran and Driscoll
to keep the peace.This decision is regarded in sport-
ing circles as practically equivalent to
a death blow to boxing in England un-
less it is reversed by a higher court,
to which an appeal will be taken im-
mediately. The fight was to be held
in December for a purse of \$10,000.DRAMATIC RESCUE OF
STRANDED STEAMERTug Braves Waves and Tows
Ship Safely to Port.Astoria, Ore., Nov. 14.—Rescued
from the jaws of death after a battle
with the elements extending over
nearly thirty hours the schooner
Washington, which struck on Pea-
cock Spit was towed to this port.
Taking advantage of the cessation of
the gale the Columbia bar tug Ta-
toosh, Captain Charles T. Bailey,
slipped in close to the Washington
and after several attempts got a line
aboard.The rescue of the Washington and
her passengers and crew, numbering
nearly fifty persons, was dramatic.
Hundreds who had watched the vessel
all day, momentarily expecting to see
her crushed on the rocks near North
Head and her passengers and crew
swept into the sea, saw the Tatoosh
reach her side. A great cheer went
up and like an echo came back the
joyful shout of the passengers huddled
on the Washington's deck.

SIX TALES MEN IN JURY BOX

Fifth Venire Has Been Exhausted in
McNamara Case.Los Angeles, Cal., Nov. 14.—Six
talesmen accepted as to cause and
three sworn jurors were in the box at
the close of the session of the James
B. McNamara trial.Five venires have been exhausted
and another of forty men was drawn
and instructed to report. The list con-
tains the name of Milo A. Baker, vice
president and superintendent of the
Baker Iron works, which is doing the
structural steel work of the new Los
Angeles Times building, and against
which a strike called by the Interna-
tional Bridge and Structural Iron
Workers is officially in progress. This
is the organization of which J. J. J.
McNamara, jointly indicted with his
brother, James B., is secretary.

RULING ON IRRIGATION CASES

Settlers With Too Much Land Can
Relinquish Part Without Loss.Washington, Nov. 14.—Settlers on
government irrigation projects who
find they have taken more land than
they are able to meet the various
charges on, may relinquish part of it
and have the payments already made
credited to the charges against the re-
tained part, according to a decision by
Secretary of the Interior Fisher.The settler may relinquish a second
tract if he still finds himself overbur-
dened, but the minimum area he may
hold is ten acres.
Experience has shown, it was pointed
out here, that the forty and eighty
acre units are in many cases too large
for cultivation by a man of moderate
means. The secretary's purpose is
to promote intense cultivation and
enable deserving settlers to retain a
part of their present holdings which
otherwise might be lost.

the will of Joseph Pulitzer, which will

ratification of the gift of \$1,000,000 to
Columbia university for the establish-
ment of a school of journalism and
also the ratification of an additional
\$1,000,000 for the same purpose, sub-
ject to certain conditions, which, if
not complied with by Columbia before
the amount is paid over, will result in
the sum going to Harvard university,
one half of it for a school of journal-
ism and one half for many unusual
prizes and scholarships, as set forth
in the will.The document sets forth a large
number of interesting bequests not
previously known. Among these is

lumbia university; \$500,000 to the
Metropolitan Museum of Art; \$500,000
to the Philharmonic society of New
York; \$100,000 to Mr. Pulitzer's faith-
ful valet, James Dunningham; \$100,

Unless the self-restraint of the mob
is greater than is believed the con-
tinued absence of organized govern-
ment cannot fail to result disastrously.Wu Ting Fang, former Chinese min-
ister to the United States, who re-
cently was appointed secretary of for-
eign affairs under the proposed reform
administration, has telegraphed a long
address to Peking urging the regent,
Prince Chun, to abdicate. He points
out that since the emperor's edict ad-
mitting responsibility for present con-
ditions and promising reforms there
has been an atrocious massacre and
ten provinces have severed themselves
from the throne without a struggle.Wu Ting Fang adds that nothing
but the adoption of republicanism can
bring peace and stop the shedding of
blood. The regent, he says, should
emulate the example of the ancient
emperors, Yao and Han, who abdicat-
ed after choosing the best available
substitutes.Dr. Wu promises that if the regent
wakes up and works for the republic
the citizens will respect and support
him in a style compatible with his
birth, inasmuch as the peace and safe-
ty of the Manchurian clans are not ex-
cluded from the national aims. The ap-
peal concludes:"Our voice is hoarse and our tears
are exhausted. No more can be said."
Rumors are current that Admiral
Lia's feet at Hankow has either sur-
rendered or been overcome by the
revolutionaries.

BEATTIE MUST PAY PENALTY

Virginia Supreme Court Denies Wife
Murderer's Appeal.Richmond, Va., Nov. 14.—The su-
preme court of appeals denied the pe-
tition for a writ of error by Henry
Jay Beattie, Jr., convicted of murder-
ing his young wife last July. This de-
cision on the appeal from the judg-
ment of the Chesterfield court, which
entitled him to die in the electric
chair Nov. 24, is final. Clemency or
reprieve by Governor Mann only can
save the condemned man.Beattie, now twenty-seven years of
age, murdered his wife, Louise Owen
eatie, aged twenty-one, after taking
her for an automobile ride on the night
of July 1. He was arrested on July 7.
He was convicted on circumstantial evi-
dence and maintained his innocence.
He has never yet shown any sign of
easing.

ATE PURSUES BROTHERS

Set One of Three Dies in Rail Wreck,
Same as Others.Greensboro, N. C., Nov. 14.—Engl-
ish W. A. Kinney, the last of three
others to be claimed in railway
wrecks, was killed and several train-
ees and passengers were slightly in-
jured near here when a Southern Rail-
way limited train was derailed.Seven cars left the track and turned
up their sides. The escape of the pas-
sengers is attributed to the fact that
the cars were of steel construction.
The accident occurred while the
train was running about sixty-five
miles an hour and was caused by a
reading rail.

LAD KILLED WHILE HUNTING

Son of Kandota Farmer Found Dead
With Clothing Afire.Sank Center, Minn., Nov. 14.—Fred
Larson, thirteen-year-old son of John
Larson, living in Kandota township,
nine miles north of Sank Center, was
fatally shot while hunting rabbits. He
was with an older brother, who went
home first. Fred, failing to return, a
search was instituted and he was
found lying dead with his clothing
afire.It is thought he tripped and the gun
was accidentally discharged. The body
was burned and mangled, as the fire
caused the cartridges in the belt to
explode.YOUTHFUL PRANK
COSTS THREE LIVESBoys Throw Nitroglycerin Car-
tridges Into Bonfire.Rochester, N. Y., Nov. 14.—A boyish
prank of throwing nitroglycerin blast-
ing cartridges into a bonfire they had
built resulted in an explosion that
instantly killed one boy and two com-
panions died later at the General Hos-
pital.The dead are: John McGuire, aged
fourteen; Archie Clark, thirteen; Wil-
liam Perry, eight.The force of the explosion shattered
windows within a radius of 500 feet.
It is believed that the boys threw
about 450 of the blasting cartridges
into the fire. They took them from
the plant of the Rochester Lime com-
pany.The body of Perry was hurled high
in the air over a tall tree and landed
in the branches of an apple tree. The
head was found on the roof of a back
kitchen of a dwelling about 100 feet in
an opposite direction. One leg was
carried over several trees and one
dwelling before it landed on the side-
walk of a street 200 feet away.The eyes of both the Clark and Mc-
Guire boys were blown out and their
bodies were terribly mutilated. No
further recovered consciousness.

MOVING PICTURE MEN JOLTED

Films Based on Copyrighted Books
Held to Be Infringement.Washington, Nov. 14.—Moving pic-
ture show promoters received a blow
when the supreme court of the United
States decided that moving pictures
based on the scenes of a copyrighted
book may constitute an infringement
of the copyright on the book or the
reserved rights to dramatize.The court's decision was announced
in a contest over the copyright of Gen-
eral Le Wallace's famous "Ben Hur."
The copyright was owned by Harper
& Bros., book publishers. This com-
pany granted to Klaw & Erlanger of
New York the sole right of producing
a dramatization of the story. It ap-
pears that the Kalem company em-
ployed a writer to read the story and
write a description of certain portions
of it and that from this a moving pic-
ture film was produced.

MUTINY ON THE MINNESOTA

One Man Killed and Four Wounded
on J. J. Hill's Liner.Los Angeles, Cal., Nov. 14.—Details
of a mutiny aboard the steamship
Minnesota, which resulted in the
death of one of the vessel's crew and
the injury of four others, were re-
ceived in a letter from the Orient. The
mutiny broke out early in October
and as a result of it and the inquiry
which came as a sequel the big ship
was held for ten days in Yokohama.
The trouble occurred among Chinese
firemen on the steamer.

CONVENTIONS ALSO AFFECTED

Will Make Little Difference in the Re-
sult—New York Remains Pivotal
State—Champ Clark Talks Right Out
in Meeting—Panama Very Much In-
spected.

By ARTHUR W. DUNN.

Washington, Nov. 14.—[Special.]—
The next national conventions and the
electors in the college which will
choose the next president and vice
president will be under the new ap-
portionment adopted by the last con-
gress. As that apportionment does not
go into effect until March 4, 1913, it
was supposed that the electors would
be the same as at present, but an old
statute provides that the number of
electors shall be the number to which
each state is entitled on the date when
the president and vice president take
office. That means that the increased
number will be elected next year.There are people who figure out that
the new apportionment will have a
great importance in determining the
election, but that is not the case. The
increase in New York, with New York
the pivotal state, makes the contest
resolve itself into pretty much the
same situation as heretofore. Either
party must carry New York to win the
presidency.

Unfortunate Utterances.

Three times President Taft rather
indicated that he was not likely to be
re-elected. These are called by his
friends "unfortunate utterances." "I
like Champ Clark," remarked a south-
ern congressman, "but he does have
the faculty of saying things that hurt
him. He seems to be in favor of ad-
dition and division—addition of Canada
and division of Texas. Neither is
popular just now. I am sorry he said
anything on these subjects, but it is
just like Champ to say what he
thinks."

Maybe Champ Was Right.

Perhaps Clark was right, though,
when he said the time would come
when the stars and stripes would float
over the territory of America to the
northpole. Yet let any one appear in the
far western Canadian provinces on the
Fourth of July and he will see such a
display of American flags as to aston-
ish him. The American citizens who
have gone to Canada think much of
the stars and stripes. If the Canadian
government were not mighty good to
them there would be much more an-
tagonism than was heard during the
late Canadian campaign.

Inspecting Panama.

Panama is being mightily thoroughly
inspected this year. All that is lacking
is a visit from the president and he
may decide to go if he feels the wan-
derlust creeping upon him again. Sec-
retary Stimson has been there with
General Wood and General Edwards.
Senatorial committees have been there.
House committees and house members
have been there.Really old Panama has been quite a
magnet this fall season. It is mighty
important, too, for congress has got to
legislate upon the Panama question and
decide upon the tolls and such matters.
How could a congressman tell how to
vote on the rate of toll if he has not
seen the big ditch? And yet a lot of
people who have not taken the trip will
be dumb ignorant unless the more for-
tunate consent to tell them about it.

Taft and the Court.

About the time President Roosevelt
was pushing Taft into the presidency
there was considerable opposition to
the program by men who did not want
any more Roosevelt policies. "I was
surprised to find at that time," said
former Senator Spooner, who was re-
nouncing, "that several of the big busi-
ness men of the country were satisfied
with Taft. The supreme court will be
reorganized by the next president," said
one of them, "and I am perfectly satis-
fied to have Taft reorganize that tri-
bunal." His words were prophetic. Taft
has appointed four new men on the
bench and will appoint another.

Joy of Incompleteness.

The men who accumulate millions,
build big houses and fix everything
just as they formerly imagined they
wanted them find, after all, that the
only joy they have is incompleteness.
Not long ago a Philadelphia million-
aire was showing the beauties of his
fine country home, telling how he had
worked out first one detail and then
another."Now that it is nearly complete," he
said, "I scarcely know what to do with
myself. It has been a great pleasure
to plan and see executed all this work,
but I will soon be without an occupa-
tion." He couldn't sit it down and enjoy
it all after he acquired it.

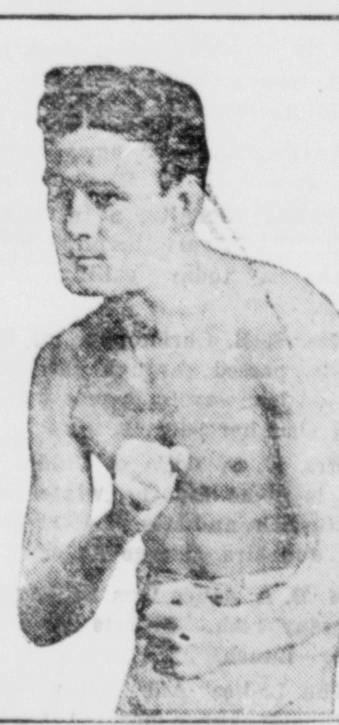

Not For Graham.

When Congressman Graham of Illi-
nois moved into his new office he
found a foot warmer in the place.
"That does not belong to me," he said.
"Take it out of here. That evidently
belonged to the fellow who had this
room ahead of me. He was a Republi-
can. You know those Republicans
got cold feet during the last cam-
paign." And Graham didn't even let
on that he ever cracked a joke.

gress authorized the equipment of two

English Judge Stops His
Fight With Owen Moran.

MAGISTRATE STOPS MATCH

Decision May Be Death Blow to Box-
ing in England.Birmingham, Eng., Nov. 14.—A mag-
istrate in the police court ruled that
the proposed contest between Owen
Moran and Jem Driscoll for the light-
weight championship of the world
would be a prize fight within the
meaning of the law and therefore il-
legal. He bound Moran and Driscoll
to keep the peace.This decision is regarded in sport-
ing circles as practically equivalent to
a death blow to boxing in England un-
less it is reversed by a higher court,
to which an appeal will be taken im-
mediately. The fight was to be held
in December for a purse of \$10,000.DRAMATIC RESCUE OF
STRANDED STEAMERTug Braves Waves and Tows
Ship Safely to Port.Astoria, Ore., Nov. 14.—Rescued
from the jaws of death after a battle
with the elements extending over
nearly thirty hours the schooner
Washington, which struck on Pea-
cock Spit, was towed to this port.
Taking advantage of the cessation of
the gale the Columbia bar tug Ta-
toosh, Captain Charles T. Bailey,
slipped in close to the Washington
and after several attempts got a line
aboard.The rescue of the Washington and
her passengers and crew, numbering
nearly fifty persons, was dramatic.
Hundreds who had watched the vessel
all day, momentarily expecting to see
her crushed on the rocks near North
Head and her passengers and crew
swept into the sea, saw the Tatoosh
reach her side. A great cheer went
up and like an echo came back the
joyful shout of the passengers huddled
on the Washington's deck.

SIX TALES MEN IN JURY BOX

Fifth Verdict Has Been Exhausted in
McNamara Case.Los Angeles, Cal., Nov. 14.—Six
talesmen accepted as to cause and
three sworn jurors were in the box at
the close of the session of the James
B. McNamara trial.Five verdicts have been exhausted
and another of forty men was drawn
and instructed to report. The list con-
tains the name of Milo A. Baker, vice
president and superintendent of the
Baker iron works, which is doing the
structural steel work of the new Los
Angeles Times building, and against
which a strike called by the Interna-
tional Bridge and Structural Iron
Workers is officially in progress. This
is the organization of which John J.
McNamara, jointly indicted with his
brother, James B., is secretary.

RULING ON IRRIGATION CASES

Settlers With Too Much Land Can
Relinquish Part Without Loss.Washington, Nov. 14.—Settlers on
government irrigation projects who
find they have taken more land than
they are able to meet the various
charges on, may relinquish part of it
and have the payments already made
credited to the charges against the re-
tained part, according to a decision by
Secretary of the Interior Fisher.The settler may relinquish a second
tract if he still finds himself overbur-
dened, but the minimum area he may
hold is ten acres.
Experience has shown, it was pointed
out here, that the forty and eighty
acre units are in many cases too large
for cultivation by a man of moder-
ate means. The secretary's purpose is
to promote intense cultivation and
enable deserving settlers to retain a
part of their present holdings which
otherwise might be lost.

Gives Another Million for School of
Journalism.New York, Nov. 14.—The terms of
the will of Joseph Pulitzer, which will
be filed for probate, were made pub-
lic. Its conspicuous features are the
ratification of the gift of \$1,000,000 to
Columbia university for the establish-
ment of a school of journalism and
also the ratification of an additional
\$1,000,000 for the same purpose, sub-
ject to certain conditions, which, if
not complied with by Columbia before
the amount is paid over, will result in
the sum going to Harvard university.
One half of it for a school of journal-
ism and one half for many unusual
prizes and scholarships, as set forth
in the will.The document sets forth a large
number of interesting bequests not
previously known. Among these is

lumbia university; \$500,000 to the
Metropolitan Museum of Art; \$500,000
to the Philharmonic society of New
York; \$100,000 to Mr. Pulitzer's faith-
ful valet, James Dunningham; \$100,-
000 to be distributed by the executors
among his personal secretaries, read-
ers and companions and certain ed-
itorial writers employed on the World;

Cold Snap Causes Fatal Explosion.

Cincinnati, Nov. 14.—The severe
cold snap was indirectly the cause of
an explosion here, in which two men
were fatally burned and three others
seriously injured. The men attempted
to thaw out a pipe leading to a
gasoline tank in the Tudor boiler
works. The oil exploded.

REVISE INJUNCTION STATUTES

Law Providing Trial by Jury in Indi-
rect Contempt of Court Cases and
Modification of Injunction Restric-
tions Regarded by Democratic Lead-
ers as Essential to Fulfillment of
Party Pledges.Washington, Nov. 14.—Amendment
of the Sherman anti-trust law at the
coming session of congress is to be
undertaken in earnest by Democrats
of the house, according to a declara-
tion by Representative Henry of
Texas, ranking member of the com-
mittee on judiciary.Representative Henry's announce-
ment came while President Taft and
Attorney General Wickersham were in
conference at the White House as to
the advisability of supplemental anti-
trust legislation. The house Demo-
crats, it was declared at the Capitol,
will push legislation along this line,
whatever may be the administration's
determination in the matter.In addition to anti-trust legislation
the judiciary committee also has de-
cided upon revision of the injunction
statutes and the laws regulating indi-
rect contempt cases.Representative Clayton of Alabama,
chairman of the judiciary committee,
who has been conferring with Repre-
sentative Henry and other members
during the recess, is expected in
Washington within a few days, when
work, already begun, on the bill
amending the Sherman law will be re-
sumed. Efforts of the committee will
be directed chiefly toward elimination
from the statute of the "rule of reason"
as interpreted by the supreme court.A law providing trial by jury in
cases of indirect contempt of court
and modification of the injunction re-
strictions are regarded by the Demo-
cratic leaders as essential to fulfill-
ment of the party pledges as expressed
in the platform of the Denver conven-
tion.

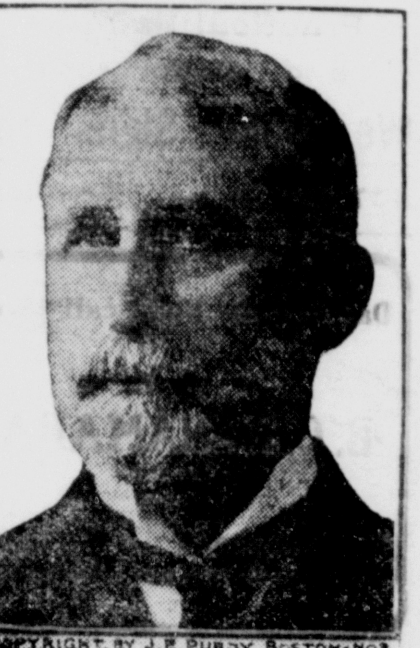

GARBAGE STRIKE IS BROKEN

Men Under Police Guard Clean Up
Refuse in New York.New York, Nov. 14.—The backbone
of the street cleaners' strike appears
to have been broken when a force of
1,800 strikebreakers, under heavy po-
lice guard, made substantial progress
in ridding the streets of a five-day ac-
cumulation of health endangering
refuse.Aided, apparently, by the vigorous
stand taken by the city authorities
and the large number of police on
guard, the strikers and their sym-
pathizers ceased their riotous tactics
and the work was attended by practically
no violence.Mayor Gaynor and Street Cleaning
Commissioner Edwards said they be-
lieved they had the situation well in
hand.

ONLY FORTY-SEVEN BOSSES

Editors and Reporters on Joplin (Mo.)
Daily Resign.Joplin, Mo., Nov. 14.—The entire edi-
torial and reporter staff of the Joplin
Morning Tribune resigned in a
body because they considered the forty-
seven stockholders scattered over
Joplin county too many bosses.A former cub reporter has accepted
the position of city editor and is the
entire staff.The question of wages did not enter
into consideration when the news-
paper men went on strike, they say.
"We walked out because of the inter-
ference of the stockholders," said one.
"Forty-seven bosses were too many."

Sell a Half Interest

There has been filed in the register of deeds office an option given by M. K. Swartz and May L. Swartz, his wife, to Percy A. Nine months time is given for the exploration of iron ore, such work to commence within 90 days. Failure to continue the work shall end the contract. The ore is to be assayed every five feet. Blue prints showing the location of the holes and assays and other data are to be furnished Mr. Swartz as the work progresses. If 250,000 tons are proved up Mr. Swartz agrees to sell an undivided

Special Assessor Judd Wright Re-Assesses Brainerd's Moneys and Credits at \$218,252

The figures on Brainerd's moneys and credits as turned in by Assessor Henry Krause amounted to \$102,665. The state tax commission objected to such a return from the city of Brainerd and ordered a re-assessment on that subject in this city as well as in a score of more of other towns in the state.

Judd Wright was appointed special assessor and he has completed his figures and they have been turned in to the proper authorities. Mr. Wright found twice as much in the moneys and credits line as did the original assessor, the exact amount being \$218,252. The number re-assessed was 130.

These figures were passed on by the state tax commission and accepted with practically no change in the totals.

ALTERNATIVE WRIT OF MANDAMUS

**Signed by Judge B. F. Wright in
Chambers This Morning on Pe-
tition of H. Schwartzkopf et al**

TO INSPECT W. & L. BD. RECORDS
Mandamus Hearing Will be Held Be-
fore Judge McClenahan on Wed-
nesday, Nov. 22

This morning Judge B. F. Wright signed an alternative writ of mandamus based on the petition of H. Schwartzkopf and others praying among other things the right to inspect the public records of the water and light board and to ascertain the true conditions of affairs of the board.

The proceedings in mandamus will be heard in chambers by Judge W. S. McClenahan on Wednesday, November 22.

The petition as presented to Judge Wright is as follows:

Hugo Schwartzkopf, H. L. Simpson, J. W. Gabious, E. L. Gustafson, Martin Wicklund, Walter Butka, L. A. Rifenrath, A. J. Witham, J. L. Ellis, G. Figge, Joseph Nelson, Jos. Lyonas, J. B. Wilmar, J. G. Brown, A. E. Gustafson, P. T. Brown, A. Gustafson, J. W. Johnson, W. I. Storm, E. R. Hettling, Jno. Murphy and A. J. Swanson, Petitioners, Vs. the Water & Light board of the City of Brainerd, Minnesota.

To the Honorable District Court of Crow Wing County, Minnesota.

Your petitioners above named, by and through their attorneys, Russell & Barron, for and on their own behalf and on behalf of all other taxpayers, freeholders and residents of the City of Brainerd, Minnesota, respectfully represent and show to the court as follows: That they are residents of the City of Brainerd, County of Crow Wing, State of Minnesota, and for a long time previous hereto have been and are consumers of water and light in said City of Brainerd.

That the water works of the said City of Brainerd belongs to the said city, and the distributing part of the electric light plant of said city belongs to the City of Brainerd, and that both of said plants so owned by the said City of Brainerd are under the direction and control of what is known as the Water & Light Board, of Brainerd, Minnesota, which board is appointed and empowered to act by virtue of the Charter provisions of said city, which Board now consists of M. T. Dunn, Mons Mahlum and Joseph Schwartz; that William Nelson is the Secretary of said board

and is in possession and control of the books and records of said Water & Light Board.

2. Your petitioners respectfully show that they believe there is gross incompetence in the management of said board; that the rates fixed for water and light furnished to the consumers are discriminatory and unreasonable, and that the management of said plants, aside from the question of rates to the public, is not in accordance with good business policy, and your petitioners are informed and believe the facts to be that they have a right to ascertain the true conditions of affairs by an inspection and examination of the public records of the said Water & Light Board.

4. That in order to ascertain such facts, your petitioners authorized their attorneys, Russell & Barron, to take such steps as would be necessary to determine whether or not the rates for water and light to the consumers are reasonable and just; and to determine whether or not the management under the said Board was and is competent; that their attorneys as a preliminary step to such an examination undertook to inspect and examine the public books and records containing the accounts of the said consumers in the hands of the said Water & Light Board, and that their said attorneys were refused the use of said books for any purpose.

5. That on the 13th day of November, A. D. 1911, your petitioner, through their attorneys Russell & Barron, served personal notice of demand for an inspection and examination of the books, as hereinbefore set forth, a copy of which notice is attached hereto and made a part of this petition, and that the said Water & Light Board refused and continues to refuse your petitioners the right to such inspection and examination.

Wherefore, Your petitioners on behalf of themselves and on behalf of all other tax-payers and residents of the City of Brainerd, respectfully petition that a Writ of Mandamus issue out of this Court, commanding the said Water & Light Board of the City of Brainerd, State of Minnesota, to permit your petitioners, through their attorneys Russell & Barron, to inspect and examine the books, records and account of the said Water & Light Board, in the said City of Brainerd, Minnesota, at such times as will not impede or obstruct in any manner the business of the said Board, and to allow your petitioners, through their attorneys, to make such transcripts of the records and accounts as they may see fit in order to determine:

SOCIAL EVENTS

Mrs. Werner Hemstead and Miss Kitty Johnson entertained for Miss Louise Beare at a high tea at five o'clock Monday afternoon. The guests were seated at five small tables in the spacious library, the bride to be being seated at the center one. Her place was marked by a gilded chair tastefully decorated with carnations and ribbons. The chandelier above was decorated with maiden hair ferns and flowers and ribbons. The fireplace was banked with ferns and carnations. Each table had large bouquets of carnations and each place was marked by a water color place card representing a bride and groom.

Small heart shaped almond cups resting on heart shaped doilies were at each place close to tiny white slipers filled with rice. A bouquet of

orange blossoms graced the bride's position at the table. When the ice cream was brought in gilt arrows pierced each portion and heart shaped cakes were served with it.

Miss Beare was presented with a beautiful receipt book, a gift of the hostess. The party was one of the pretty social functions of the season.

Harry Bulger and his famous musical comedy, "The Flirting Princess" will be at the Brainerd opera house on Wednesday evening, November 29. The advance sale of seats will be held on Monday, November 27th.

At the Grand

The Grand theatre presents an attractive program of music and moving pictures and the attendance at this popular play house is daily increasing. The songs are sung by Goetz and Howard, and they have proven winners from the start.

Under Manager Nimick's direction the theatre is making great progress. Mr. Nimick was formerly the manager of the Princess Theatre Circuit Co. play house at Little Falls and has had much experience in the moving picture business.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c.

At the Empress

One of the amusing stories told by the moving pictures at the Empress theatre is the one entitled "A Gay Time in Washington." George Clayton, who is pining for a real joy party away from his wife, gets a friend of his to send him a fake telegram that President Taft wishes him to dine with him. George and his pal have a gay time and in the interval Mrs. Clayton reads the newspapers and finds that the president has not been in Washington for several weeks. George's finish when he returns home is something which induces a feeling of sadness on the part of every married man who visits the show.

"The Mate of the John M." is a typical tale of the sea and the "Revolution of California in 1846" is an historical picture of real merit. Miss Carleton sings the late song success, "Billy."

BEST WAY TO BREAK A COLD

The Most Severe Cold and Grippe Misery Will be Relieved in Just a Few Hours

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery so promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Great Guns Not Straight

Few people know that our great naval guns are not straight. They droop at the muzzle very slightly by their own weight, and differences of temperature in their several parts make them wavy. Because of this, every large projectile leaving a gun, goes out wabbly for a distance of at least 500 yards, and the droop must be overcome in sighting. There is no deviation in golden grain belt, which never drop in quality or flavor, and are true the entire length of the year. Aid digestion with a case now. They make friends everywhere. Order of Walter Bolton, Tel. 17934, Brainerd, Minn.

WHY TOWNS STAY SMALL

"Inbreeding" is the Novel Cause Advanced by Commissioner Dallas F. Burch of Kansas

A novel theory for the decline of prosperity and trade in small towns is advanced by the current number of the Wisconsin Alumni magazine by Dallas F. Burch, formerly editor of the Butter, Cheese and Eggs Journal and now dairy commissioner of Kansas.

"Inbreeding" is the term used by the author.

By this he means that a town lived too much to itself, its citizens intermarry only among themselves, innovations and new-comers are frowned upon and gradually the town drops behind and becomes "dead."

CASCARETS CLEANSE LIVER AND BOWELS

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Coated Tongue or Constipation

Furred tongue, bad taste, indigestion, sallow skin and miserable headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

A LIBERAL OFFER.

We Guarantee to Relieve Dyspepsia. If We Fail the Medicine Costs Nothing.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

MUSIC AND DRAMA

"The Flirting Princess"

Harry Bulger and his famous musical comedy, "The Flirting Princess" will be at the Brainerd opera house on Wednesday evening, November 29. The advance sale of seats will be held on Monday, November 27th.

At the Grand
The Grand theatre presents an attractive program of music and moving pictures and the attendance at this popular play house is daily increasing. The songs are sung by Goetz and Howard, and they have proven winners from the start.

Under Manager Nimick's direction the theatre is making great progress. Mr. Nimick was formerly the manager of the Princess Theatre Circuit Co. play house at Little Falls and has had much experience in the moving picture business.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES signature is on each box. 25c.

At the Empress
One of the amusing stories told by the moving pictures at the Empress theatre is the one entitled "A Gay Time in Washington." George Clayton, who is pining for a real joy party away from his wife, gets a friend of his to send him a fake telegram that President Taft wishes him to dine with him. George and his pal have a gay time and in the interval Mrs. Clayton reads the newspapers and finds that the president has not been in Washington for several weeks. George's finish when he returns home is something which induces a feeling of sadness on the part of every married man who visits the show.

"The Mate of the John M." is a typical tale of the sea and the "Revolution of California in 1846" is an historical picture of real merit. Miss Carleton sings the late song success, "Billy."

BEST WAY TO BREAK A COLD
The Most Severe Cold and Grippe Misery Will be Relieved in Just a Few Hours
You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Great Guns Not Straight

Few people know that our great naval guns are not straight. They droop at the muzzle very slightly by their own weight, and differences of temperature in their several parts make them wavy. Because of this, every large projectile leaving a gun, goes out wobbly for a distance of at least 500 yards, and the droop must be overcome in sighting. There is no deviation in golden grain belt beams, which never drop in quality or flavor, and are true the entire length of the year. Aid digestion with a case now. They make friends everywhere. Order of Walter Bolton, Tel. 17914, Brainerd, Minn.

WHY TOWNS STAY SMALL

"Inbreeding" is the Novel Cause Advanced by Commissioner Dallas F. Burch of Kansas

A novel theory for the decline of prosperity and trade in small towns is advanced by the current number of the Wisconsin Alumni magazine by Dallas F. Burch, formerly editor of the Butter, Cheese and Eggs Journal and now dairy commissioner of Kansas.

"Inbreeding" is the term used by the author. By this he means that a town lived too much to itself, its citizens intermarry only among themselves, innovations and new-comers are frowned upon and gradually the town drops behind and becomes "dead."

CASCARETS CLEANSE LIVER AND BOWELS

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Coated Tongue or Constipation

Furred tongue, bad taste, indigestion, sallow skin and miserable headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.
